DESCRIPTION OF VARIETIES

New Hardy Ever-blooming Rose, "Beauty of Rosemawr"

WE TAKE pleasure in recommending this Grand New Rose, because we feel sure it will please all who want fine **HARDY EVER-BLOOMING ROSES**. It was selected from among our choicest hybridized seedlings as combining more good qualities for general planting than almost any rose we know. It stood for five years entirely unprotected in the open ground and never failed to bloom continuously every year. We are so confident of its value we have named it after our place—"BEAUTY OF ROSEMAWR". We recommend it as one of the **VERY BEST HARDY EVER-BLOOMING ROSES WE KNOW**. It is a vigorous grower, making a strong, handsome bush, entirely hardy, needs no protection, begins blooming quickly and continues blooming the whole season until stopped by hard frost. The flowers are perfectly double, with fine overlapping petals and raised centre. The color is a lovely shade of rose, exquisitely veined with fine crimson and white markings, exceedingly beautiful and fragrant. Its entire hardiness and constant blooming qualities make it particularly valuable for general use and it is equally fine for house culture. It blooms as freely and continuously as the roses of our grandmothers' gardens, and the flowers being perfectly double and delightfully fragrant, it is far superior to them in every way. The "BEAUTY OF ROSEMAWR" has come to stay, and will be largely planted by lovers of hardy ever-blooming roses for years to come.

PRICE—Strong Plants, 30c. each; 3 for 85c., postpaid. Two-year size, 60c. each, express.

Corallina—An Elegant New Rose from England; flowers deep rosy crimson, large, full and finely formed; makes beautiful buds and is a most constant and abundant bloomer, particularly during the Fall months until stopped by freezing weather. Its large size and rich, handsome color make it especially desirable for bedding. 15 cts., postpaid. Two-year, 35 cts.

Alliance (Franco-Russe)—A superb new golden-yellow Ever-blooming Rose, one of the most beautiful we have of this charming color. It is a strong upright grower and constant and abundant bloomer; makes long pointed buds and splendid large double flowers, bright shining golden yellow, shading to pink and deep rose at the centre, delightfully fragrant, an elegant bedder, and quite hardy with usual protection. 20 cts. each. Two-year, 60 cts.

New Crimson Rose, Gruss an Teplitz (Virginia R. Cox), or CRIMSON HERMOSA—This grand rose has proved one of the best and most valuable Hardy Crimson Ever-blooming Roses for garden planting ever introduced. The color when first opening is dark rich crimson quickly passing to velvety fiery-red, one of the very brightest colored roses we know. Flowers large, full and sweet, very showy and handsome; blooms constantly, throwing up fresh buds and flowers the whole growing season. The bush is a healthy vigorous grower, entirely hardy here with usual Winter protection. Cannot be recommended too highly; everyone should have it. 15 cts. each. Two-year, 35 cts.

Ivory, or White Golden Gate—The beautiful Golden Gate Rose is now so well known that to say "Ivory is exactly like it, only different in color," is all the recommendation that is needed to place it in the front rank of our most beautiful Ever-blooming Roses. It is an exceedingly free bloomer, sure to be covered with buds and flowers as long as the bush is kept in growing condition. The flowers are large, full and sweet, clear ivory white, and highly valued for cutting and all kinds of florists' work. 20 cts. each. Two-year, 50 cts.

Climbing Clotilde Soupert—Everyone wants at least one fine Hardy Ever-blooming Climbing Rose, and we therefore include in this collection, "Climbing Clotilde Soupert," the finest of all Hardy Ever-blooming Climbers. It is a strong, vigorous climber, and bears grand clusters of large creamy-white double roses the whole season from June to November. It is a magnificent rose in every way, and the only climber we send in this set of seven. 20c. each. Two-year, 40 cts.

The Gem—This is a very lovely rose, scarcely excelled by any of the newer kinds; the color is rich creamy-white, delicately shaded with rose and pale canary-yellow; large full flowers, delightfully scented, and a most constant and abundant bloomer, covered with buds and flowers from June till November. Everyone who knows it wants "The Gem." Price 15 cts. each, larger size 20 cts., postpaid. Two-year size, 35 cts. each, by express.

A Single Cluster of the New Hardy Iron-Clad Ever-Blooming Rose

==New== Century

THIS magnificent Rose was introduced by ourselves and shown in a handsome colored plate on the front cover of our 1901 catalog. It has proved so valuable that we have had a new illustration made this year, and again ask special attention to it.

NEW CENTURY is a cross between the lovely **Clotilde Souper** and **Rosa Rugosa-Alba**. It is perfectly hardy and blooms at short intervals all through the Summer and Fall. The flowers are 3 to 4 inches across, perfectly full and double and borne in splendid clusters. The color is bright rosy pink, with bright red centre, and having all the petals widely bordered with fine creamy white as shown in illustration. It is very sweet and has the delightful fragrance of the Wild Rose or Sweet Briar. It has been called the **New Iron-Clad Ever-Blooming Rose** which describes it exactly, for besides being entirely hardy it seems impervious to the attacks of insects, rust or blight and is a real Iron-Clad Continuous-Blooming Rose, entirely different from the old ever-blooming varieties; should be planted in rich ground and kept well manured to induce vigorous growth and continuous bloom. **Price** strong 1-year plants 25 cts. each, larger size 30 cts. each, postpaid. Fine two-year bushes from pots or open ground, 40 cts. each. Extra size three and four-year bushes, cut back ready for planting, 60 cts., 75 cts. and \$1.00 each by express.

C. & J. Quick-Blooming Roses

A SPECIAL GRADE, LARGER and OLDER than our Ordinary Size Plants

WE want all our friends to try our Special Grade Quick-Blooming Roses, as offered in the following list. They are especially selected early-flowering varieties, growing last season and kept dormant over Winter, and then repotted in larger size pots, which makes stout, stocky plants with an abundance of strong working roots, in best possible condition for vigorous growth and quick bloom. They should be planted as early as possible after the frost is out; rough weather will not hurt them and the earlier they are planted the quicker and better they will bloom. There are no roses equal to these for quick and satisfactory bloom.

They cost a little more than the ordinary size, but are worth twice the difference, and are sent postpaid by mail at the prices stated. They are so **hardy and vigorous** you cannot easily kill them or keep them from blooming.

Do not fail to give them a trial this season. Order to-day and we will send whenever desired.

General Jacqueminot

The Premier Hardy Crimson Rose.

Famous the world over as one of the most magnificent Hardy Crimson Roses ever introduced. It is a strong vigorous grower, entirely hardy, an early and abundant bloomer, and both buds and flowers are considered models of perfection, and its brilliant shining crimson color is the standard of beauty by which other roses are judged. In fact, it is almost unequalled in beauty of form and brilliant intensity of color. It is not a new variety, but so valuable that it is frequently scarce and difficult to obtain, as almost everyone wants a "General Jack." This year, however, we have secured an unusually large stock in the four different sizes offered below, and have enough to supply all demands at the prices stated.

HARDY HYBRID PERPETUAL ROSES

THE Hybrid Perpetuals are considered the most valuable of all roses because they bear the largest, sweetest and most brilliant colored flowers, and are so hardy and vigorous they live over Winter without protection, and continue to bloom regularly from year to year. Their grand flowers are of all shades of red, crimson, scarlet, pink and white, but no yellows. They thrive and bloom finely in all sections of the country and should generally be planted in open ground as but few varieties are suitable for house culture. Some kinds do not bloom till the second year, but when fully established bloom regularly at the usual time, and occasionally during the Summer and Fall months. Though called "Perpetual," they are not constant bloomers but are the finest and most beautiful of all **Hardy Roses**.

Including the Choicest New Roses and all the Best Standard Kinds

A long experience in the growing of Roses has given us a thorough knowledge of varieties. By numerous experiments and trials, we have learned what kinds may be depended on to produce the finest growth, the most beautiful blossoms, the sweetest fragrance, etc. With this information in mind, and having eliminated all poor kinds, we have selected and offer herewith an ample list of the very best Roses that are known to-day in each of the various classes. This list includes every Rose named in this book, and with fair treatment not one of the varieties here shown should prove unsatisfactory.

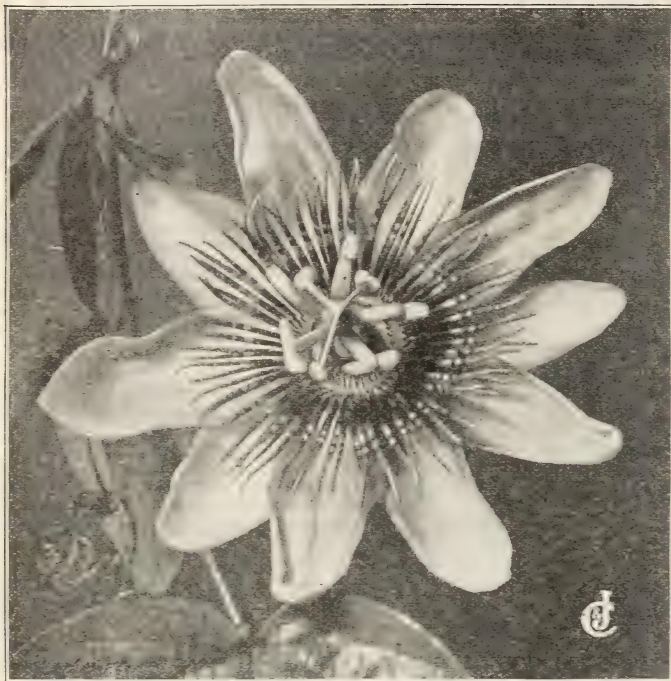

In addition to the Roses referred to in this list, we wish to refer our customers to our **Special Grade of Quick-Blooming Roses** shown on page 29, and **Special Lists of Two-Year-Old Roses** on page 40, and **Complete Index to Plants, Bulbs and Seeds** on page 134.

Too much can not be said in its praise. It is a fine hardy plant, easy to grow and sure to bloom. **The most splendid passion flower in existence**, and one it is no trouble to have in perfection. Do not fail to include it in your order this season; it will surprise and please everyone. **Price, strong plants, 15 cents each; larger size, 20 cts., postpaid.**

NEW CRIMSON

CHENILLE PLANT

ACALYPHA SANDERI
.: OR COMET PLANT

THIS cut is a representation of the plant as it really appears, and is not at all overdrawn. It grows 10 to 12 inches high, blooms quickly and abundantly, and the flower tassels grow as long as the plant is high. They are covered all over with fine crimson flowers, looking almost exactly as if made of crimson chenille or silken plush. The plant likes heat and moisture, and good rich soil, but grows easily and blooms so quickly that many are beginning to flower when sent out. When warm weather comes, set out in the flower bed, and it will grow the whole season. A most surprising novelty and a great curiosity. **Strong plants, 15, 20 and 25 cts., postpaid. Extra size, 35 and 40 cts. each, by express.**

—THE WONDERFUL NEW— Blue Flowering Coleus

THIS is a grand novelty from South Africa, and said to succeed well here also. Grows 2 to 3 feet high, has pretty pea green leaves, and bears a great abundance of lovely sky-blue flowers in handsome spikes, which on old plants are sometimes over a foot long and two or three inches around. A grand plant for the flower bed in Summer, and a most constant and abundant Winter bloomer for the house or conservatory. It is as yet quite new and scarce, but we make price as low as possible, and hope our friends will give it a liberal trial. **Strong plants, 20c. each, postpaid.**

Cissus Discolor or Climbing BECONIA

NOT a true Begonia, but an elegant vining window plant, having as richly colored foliage as the finest Painted Leaf Begonias. Has long heart-shaped leaves with a rich metallic lustre. Exquisitely marked in different shades of silver and bronze green, beautifully veined with red, the under side being dark rich crimson. Extra fine for window boxes, vases and pots, and when given a small trellis a foot or two high for support, soon makes a parlor plant of almost unequalled beauty. It likes heat and moisture, and may be kept growing all the time or dried off and rested when desired. **Strong plants 15 and 20 cts. each, postpaid.**

ACALYPHA SANDERI, or COMET PLANT

TRITOMA GRANDIFLORA

THE SPLENDID EVER-BLOOMING

Tritoma Grandiflora

or, New Flaming Torch Plant

THIS IS A GRAND NEW PLANT FOR THE FLOWER GARDEN, VERY SHOWY AND HANDSOME . . .

GROWS from the root and throws up strong stems 2 to 3 feet high, bearing large clusters of brilliant orange-scarlet flowers in elegant pompons, 6 to 8 inches long and 2 to 3 inches across, as shown in our illustration. It can be planted out early in the Spring, and will soon begin to bloom and continue to throw up its gorgeous spikes of splendid flowers the whole season, until the ground is hard frozen. It is quite hardy here, when given a light covering of leaves or garden litter, but further north the roots should be lifted and kept in the cellar over Winter, buried in sand. Early frosts do not hurt it, or keep it from blooming, and it continues as brilliant as ever long after other flowers are gone. It is unsurpassed for cutting, and its grand flame-colored pompons will keep for weeks in water. Can scarcely be recommended too highly for beds and borders. It is a grand plant in every way. Price, strong roots, 20 cts. each, postpaid.

New Giant-Flowering Caladium

THIS splendid new plant resembles the Caladium Esculentum (Elephant's Ears) in some ways, but is entirely distinct and vastly superior in every respect. It is truly gigantic in size, frequently growing 8 to 10 feet high, with leaves 5 feet long by 2 to 3 feet wide. They are beautifully veined and bright glistening green, shining as if varnished. Begins to bloom when four to five months old, and throws up immense snow-white flowers like Giant Calla Lilies, in constant succession all through the growing season; or, if kept in the greenhouse, will keep on flowering until time to plant out again next season. Plants lifted from the open ground in the Fall will bloom all Winter. The flower buds start from the base of the leaf-stalk, and each one will produce six or eight flowers which will open

GIANT-FLOWERING CALADIUM

in succession. The flowers are pure white at first but soon pass to pale yellow. The fragrance is given out at night and is so rich and powerful that a single plant in bloom will scent the air for a long distance around. It makes a grand pot plant if given an 6 or 8-inch pot, and may be kept growing all the time or set in cellar over Winter, and planted out as soon as the ground is warm, in Spring. It likes good rich earth and plenty of heat and moisture. It is a very striking novelty for the lawn, and will no doubt be scarce for years.

Price, fine strong plants, 25 cts. each; five for \$1.00, postpaid.

PLEASE NOTICE—Our 7 to 9 and 5-inch Fern Balls are grown for us one year in Japan, and though they do not look quite so bright and clean as when freshly made up, they are considered much better because the roots have become established, and are in condition to start quicker and make a more vigorous growth, and when kept thoroughly dampened, in a moderately warm room, will soon be covered with a handsome growth of lovely emerald green fronds as shown in the illustration.

New Scarlet Fountain Plant

(*RUSSELLIA ELEGANTISSIMA*.)

The young Fern roots are twisted and worked together with moss and peat into round balls which only need water and moderate warmth to start them into growth and beauty; may be hung in a window and kept moist by occasionally dipping in water or placed in a dish or vase, where they make lovely table ornaments—they have proved very popular with flower lovers everywhere, and we sell a great many of them. We offer them in 3 sizes.

THE GREAT NEW American Wonder Lemon

Will Grow and Bloom Anywhere in
Any Good Ordinary Soil

NEW LEMON, AMERICAN WONDER

StrawberryGuava

A LUSCIOUS TROPICAL FRUIT
and CHARMING HOUSE PLANT

THIS is a native of Cuba and other West India islands where its fruit is of great value for food, and also for making confections, which are exported to all parts of the world. Here, in our climate, it makes a charming house plant, rivaling the famous Otahiete Orange in beauty. It is a nice clean grower, with thick glossy green leaves, and like the orange, it bears both flowers and fruit at the same time. The flowers are pure white and delightfully fragrant. The fruit is large, nearly the size of a walnut, and of a beautiful reddish color; the flavor is delicious, sweet and spicy, and yet rich and delicate. It is very rare and interesting. The plant begins to bloom and bear fruit while quite small. Nice mail plants, 15 cts. each, larger size, 20 cts.; 2 for 35 cts.

THE YELLOW or ORANGE GUAVA—Similar to the above except in color, which is rich orange-yellow; very handsome and desirable. Price, 15 and 20 cts. each.

The TWO VARIETIES, 25 cts.; **LARGER SIZE**, 35 cts., postpaid.

THE STRAWBERRY GUAVA

THIS is the grandest new fruit for house-culture ever introduced.

Hundreds of testimonials have been received from persons who have tried it, testifying to its easy culture, wonderful productiveness and the enormous size and excellent quality of the fruit, some of which weigh as much as three pounds each, and are three times the size of the cut shown herewith. It is claimed by the introducers that one of these lemons will go as far as six ordinary lemons for all kinds of culinary uses. The tree is a strong, vigorous grower and quite hardy; may be kept in a pot or box set out in Summer and taken indoors in Winter; requires no coddling, not troubled with insects, and will begin to bear very quickly, and as soon as fully established will continue to bear both flowers and fruit continuously every month in the year. The flowers are pure waxy white and very sweet and like orange blossoms; the leaves are thick glossy green and shine as if varnished. It makes a very handsome tree and is well worth taking care of as it will last a lifetime and grow more valuable every year. **Nice mailing plants**, 20 cts. each, 3 for 50 cts., 6 for \$1.00, postpaid. **Larger size**, 25 cts., 5 for \$1.00. **Nice two-year plants**, ready for fruiting, 50 cts., 3 for \$1.25, express.

C. & J. VELVET GREEN LAWN GRASS SEED.

THE BEST BRAND FOR SEEDING DOWN NEW LAWNS AND RENOVATING OLD ONES.

OUR VELVET GREEN LAWN GRASS SEED is not excelled by any for producing a smooth, even, velvety-green sward that will withstand drought and hard usage, and always makes a handsome appearance. In seeding down a lawn or grass plot, three things are necessary to insure success: First, to prepare the ground so as to have a fine, smooth seedbed; second, to put on plenty of seed; never less, but rather more than the directions call for; third, to start the lawn-mower as soon as the weeds (which are always in the ground and sure to start first) are tall enough to catch, and keep them mowed off close till the grass has time to start and become well established. The seed should be lightly raked in and finished with a roller. Apply any good commercial fertilizer as a top-dressing when needed. One quart of seed is enough for three hundred square feet (fifteen by twenty feet), or at the rate of five bushels to the acre. Lawns should be kept neatly mowed, which induces a clean, even growth of fresh lively green.

Price by mail, postpaid 25 cts. per quart; two quarts for 45 cts.; in bulk, purchaser paying express charges \$1.25 per peck; \$4.00 per bushel of 20 lbs.

A Convincing Bit of History

ers all Summer long. They are now extensively planted in the finest public parks and home lawns. When first grown in our grandmothers' gardens the Canna was known as the "Indian Shot Plant," but then its flowers were too small to attract attention. Later, Europe sent us kinds with larger flowers—but they were not well suited to our climate. About a dozen years ago, the Vice-President of our company, and our veteran rose-grower, Mr. Wintzer (see photo. above), became convinced that by careful hybridizing, the Canna could be made to produce larger flowers and more brilliant colors that would stand our hot suns and whipping winds. We regret that lack of space forbids details, for the process of originating a new flower is a fascinating story in itself. How much we have done in producing for America a **NEW RACE OF CANNAS, superior in every way to the old**, may be read on the Canna pages of this or any other up-to-date catalogue. We have introduced more than 50 excellent kinds, including the richest reds, the purest yellows and prettiest pinks, and in fact the best in all shades. This year we crown the list of our introductions with the **New White Canna, "MONT BLANC."** Each year we devote a large area to testing new varieties. **We grow the best, discard the rest. We are Canna specialists.** There are other good Cannas which we can supply you, but if you want the best sorts to stand the storms and bloom the brightest, always order **C. & J. NEW BRONZE-LEAVED CANNA, "HIAWATHA"—Medium height and perfectly formed from the ground up. But its flowers are its crowning glory, borne as they are in big bunches on strong straight stalks. Individual flowers are large, have broad petals, gracefully rounded and slightly crimped. Color is a delicate tint of rosy pink daintily dappled with silver blush, and finished off with a border of clear cerise. A most charming combination. Height about 8 feet. Nice Potted Plants, all season, 50 cts. each, postpaid.

NEW BRONZE-LEAVED CANNA, "CHAUTAUQUA"—A distinguished-looking Canna. Flowers pure rich scarlet, intensely vivid; has luxurious tropical foliage prettily bronzed, and makes a splendid color contrast with brilliant blossoms. "Chautauqua" has the habit of holding its rich bunches of bloom high above the foliage, a feature which makes this variety especially valuable for massing. They continue to produce this brilliant and striking effect from early Summer until cut down by frost. Nice Potted Plants, all season, 50 cts. each, postpaid.

NEW STORM-PROOF CANNA, "GLADIATOR"—Visitors walking through our Canna fields stop short in front of "Gladiator" every time. The big, round flowers of bright yellow petals are thickly spotted with pure crimson, smaller center petals are solid crimson, rich and glowing; blooms profusely. Heads are unusually large and borne on long strong stalks with tough deep-green foliage. "Gladiator" will stand the storms better than any other Canna there is, unless it be "Buttercup." Height, 4 to 5 feet. Nice Potted Plants, all season, 50c. each, postpaid.

Above set of 3 New 50c. Cannas in strong Growing Plants, from 4-inch pots, only \$1.25; or the 4, including "Mont Blanc," only \$2.00, delivered free.

10 BEST AMERICAN CANNAS

MANY CUSTOMERS ordering Cannas leave selection to us, realizing that with our extended experience we can often judge better than they which kinds will prove most satisfactory.

Believing it would be a convenience to many, and especially to customers who wish **nothing but the best**, we have with great care picked out this set of **TEN BEST AMERICAN CANNAS**. We have here the deepest red, the richest, purest yellow, and the prettiest pink flowers of all Cannas yet introduced, and in each of these varieties are combined an unusual number of all-round excellent qualities which make them suitable for almost any decorative purpose. We wish to remind our customers, however, that by far the finest and most striking effect may be obtained by planting together in large rows or beds. For anyone who desires that his or her planting shall represent **up-to-date Canna perfection**, we heartily recommend these kinds.

DUKE OF YORK—Largest and most magnificent of the variegated Cannas. Bears great bunches of immense flowers. Color, a beautiful rich deep crimson, with a throat of curiously mottled creamy white, and each petal exquisitely edged with an irregular border of fine gold. Light green foliage, very tough; a strong grower. Height, 4 to 5 feet. (See cut.) Strong Dormant Roots, 25 cts. each, postpaid.

BRANDYWINE, The beautiful Bronze-leaved Canna—A healthy vigorous grower of 4 to 5 feet. Makes a luxurious growth of **dark bronze** foliage and a magnificent display of fine large flowers. Color is intense vinous red beautifully dappled with deep crimson; two or three petals are sometimes narrowly edged with bright gold. Strong Dormant Roots, 25 cts. each, postpaid.

BUTTERCUP—True bright buttercup yellow; large beautifully-formed flowers in fine large handsome trusses; stands unfavorable weather better than most any other kind and always shows up bright and clear, and is undoubtedly the best and most beautiful pure, bright, deep yellow Canna yet produced. Height 3½ feet.

CHEROKEE—This Canna is a royal beauty of pure dark maroon, a shade of coloring so intensely deep and rich that it beggars all description. Petals are 2 inches broad, soft and fine as velvet. Blossoms borne on big branching trusses. About 3 feet high. Foliage light green and very good.

EVOLUTION—The flowers are rich golden-yellow, shading through canary and sulphur to a center of beautiful blush pink. Such exquisite, dainty color, mounted on the handsome dark-bronze foliage, produces one of the most rare and pleasing color contrasts of any Canna in existence. Exceedingly unique and sure to attract attention.

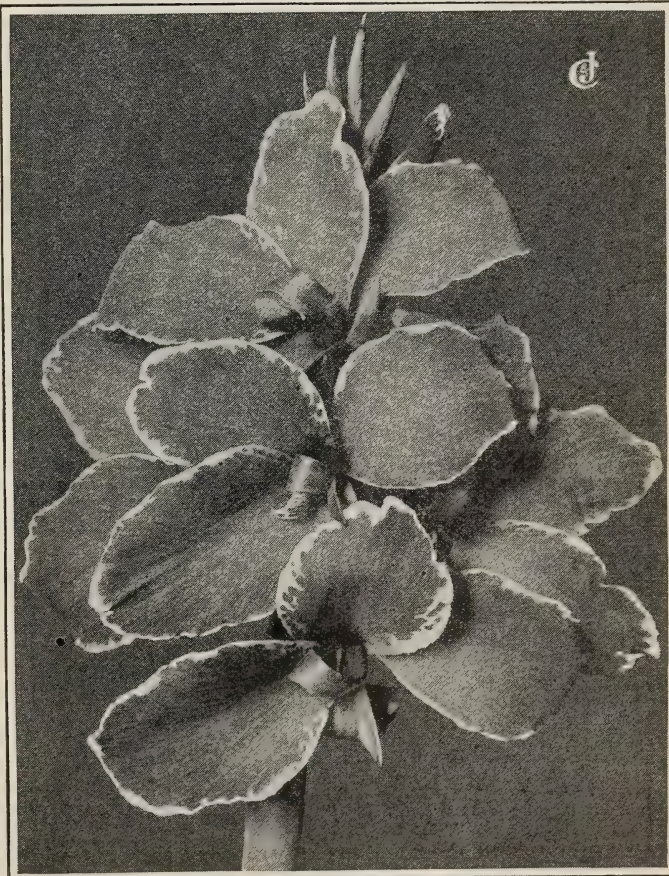

NEW ROSE PINK CANNA, LURAY—This was one of the prize-winners at the Pan-American Exposition at Buffalo, in 1901. It makes fine shapely plants 3½ to 4 feet, massive heads of splendid bold flowers, clean bright rose pink, very showy and handsome. Very durable and retains its beauty through all kinds of weather. Green foliage.

NIAGARA, CRIMSON AND GOLD—We consider "Niagara" the best of the low-growing variegated Cannas. Great handsome trusses; broad, thick, durable petals; color, rich deep crimson with a wide irregular border of deep golden-yellow. An excellent grower. Height, 3 feet. Green foliage.

QUEEN OF HOLLAND—This handsome Canna makes well-balanced plants, 2½ to 3 feet high. Foliage very dark green, heavily veined and edged with bronze. Bears immense branching trusses of perfectly beautiful flowers. Color, deep rich orange. (In answer to an order from the Royal Gardens of the Queen at "Het Loo," we sent a consignment of these Cannas to Holland last season.)

FAIREST PINK CANNA, "BETSY ROSS"—(Named after the illustrious maker of the first American flag, our Mrs. S. Morris Jones being a direct descendant.) Hardy English or Large-Flowered Clematis

NOTE.—The Large-Flowered or Hardy English Clematis are considered the most beautiful of all our Flowering Vines. The flowers are large, often measuring 4 to 6 inches across and are borne in great wreaths and clusters during July and August; the colors range from rich, royal purple to pearly-white. The vines are of slender, wiry growth and require support that they can twine around, like a rod, pole or wire, and if the location is somewhat moist and partially shaded, so much the better; the north side of the house or porch is often the best place for them; hardy, but a mulch of leaves or litter around the roots, at least the first season, will be an advantage.

Hints on Growing Flowers from Seeds.

Always buy **C. & J. Surpassing Flower Seeds**; they are the best. A dollar's worth of **C. & J. Surpassing Flower Seeds** will produce many times as many flowers as the same amount expended in plants.

Any ordinary soil will grow beautiful flowers. Make it fine and mellow, plant at proper time, keep clear of weeds, and Nature "will do the rest."

Do not plant when ground is wet and soggy, or it may bake so hard as to prevent the little plants from coming through.

Do not cover too deeply; very fine seeds should be merely pressed in with the hand; see printed directions sent with every order.

Do not allow plants to stand too thickly; weed out or transplant if necessary; if crowded they cannot bloom satisfactorily. A home adorned with beautiful flowers is sure to be happy and prosperous.

Transplanting.

Nearly all flowers are improved by transplanting, except Sweet Peas, Poppies, Centaureas, etc., which are usually sown where they are to grow. By starting tender seeds in boxes, hot beds or cold frames and transplanting, you escape danger of frost and secure the earliest and finest flowers.

THE WONDERFUL NEW LOGAN BERRY (BLACKBERRY RASPBERRY)

This grand new Berry originated in California but has been tested here for several years. It makes a strong vigorous bush, and is quite hardy unless in very exposed situations where slight protection may be advisable. It seems to be a true Hybrid between the Raspberry and Blackberry, partaking of the nature of both in quality and appearance but of finer and more delightful flavor. The Berries are the size of the largest BLACKBERRIES and of a rich dark purple red, entirely different and much larger than any other Blackberry. It bears abundantly, the fruit has very few seeds, ripens early before blackberries, and is of such superior quality for cooking and eating that it has brought four times the price of other berries in market. It is well worthy of careful trial by every one interested in New Fruits, as it is very handsome and entirely different from all other berry fruits. **15 cts. each, 2 for 25 cts.; \$1.50 per dozen, postpaid. \$6.00 per hundred, by express. A NEW MAGAZINE

HOME and FLOWERS

is now a full-fledged magazine, and during the past year has been much changed and vastly improved.

Each number is full of information that will help you make your home more beautiful with flowers. It treats of other topics of household interest in the same attractive manner, and is in fact a very complete home magazine. In addition to this, it is the official organ of the "American League for Civic Improvement," and as such it is interesting public spirited citizens everywhere in beautifying their home towns by planting streets and open spaces with flowers and trees. "HOME AND FLOWERS" believes that the best there is in mankind may be developed through attractive environment, and itself breathes a spirit of sunshine that must certainly be an inspiration to its readers.

It is issued monthly, of about regular magazine size, printed on fine book paper and beautifully illustrated with half tone engravings made from photographs.

The regular price is \$1.00 per year, and the publishers at Springfield, Ohio, say it cannot be sold for less than that. Grand New Ever-blooming White Canna - Mont Blanc -

Originated and Introduced by The Conard & Jones Company

THIS MAGNIFICENT NEW CANNA is the result of many years of careful Hybridizing, and we now have the pleasure of introducing the **FINEST WHITE CANNA** in commerce. **MONT BLANC** has a vigorous constitution and produces its large beautiful white flowers on strong branching stalks well above the foliage. **IT BLOOMS EARLY AND CONTINUOUSLY** in the greatest profusion during the whole growing season until stopped by freezing weather. Its foliage is bright glossy green, very large and handsome, and so thick and leathery it is not often injured by rain or wind. It is a strong-growing, vigorous variety, and will produce from **FIFTEEN TO TWENTY FLOWER STALKS IN A SEASON**. Its great masses of snowy-white flowers contrast finely with the splendid crimson and pink varieties, making the most gorgeous and showy flower beds for the lawn or garden it is possible to have. (See painting on back page.)

PRICE, Strong potted Plants \$1.00 each, \$5.00 for 6, Delivered free by Mail or Express

NOTE. All Cannas we send out, both Dormant Roots and Potted Plants, are ready for planting at once, as soon as the ground is warm and weather settled, but if received earlier than this, they should be grown in pots or boxes in the house till time to set out, as they cannot bear much cold. See cultural directions sent with every order. They grow very easily, and our Dormant Roots with proper treatment will bloom nearly as quick as the Potted Plants. Please notice however that **Dormant Roots can only be furnished up to May 1st**. After that time we will have Potted Plants only, and when Dormant Roots can not be sent, we will send equal value in Potted Plants. It is always best when convenient to have potted Cannas sent by express so that some earth can be left on the roots, and as we make a special reduction to those who order sent by express, it costs very little more, and is the best way for started plants.

6 "Ready-made" Canna Beds

FOR a gorgeous display of the most brilliant colors all Summer long and until late Fall, there is nothing can equal the Canna; and there is no way in which Cannas can be more effectively and satisfactorily used than when planted together in large rows or beds. As sizes range from 2 to 5 feet, and colors include some 40 different shades, it is important to select for this purpose kinds that look best together. For the convenience of our customers, therefore, we here offer a few carefully chosen collections. For the size and price of beds named, we believe the arrangements we suggest will produce the finest effects in Canna beds it is possible to obtain. Plant any of these combinations and you will be surprised and delighted with the result. Full directions "HOW TO PLANT" will be sent with each order.
